[Patient Access Network \(PAN\) Foundation](#) for Pan Foundation Patient Access Funds – For Medicare Patients being Treated for Heart Failure

The Patient Access Network (PAN) Foundation has launched a new patient assistance fund for Medicare patients being treated for heart failure. Qualifying patients will be eligible to receive up to \$1,500 per year to help cover the out-of-pocket costs associated with their prescribed heart failure medications. To qualify, patients must:

Have Medicare insurance and it must cover the medication for which they seek assistance

Reside and receive treatment in the United States

Have a household income at or below 500% of the Federal Poverty Level (for example, \$79,650 or less for a family of two).

Patients, or advocates and caregivers applying on their behalf, can apply for assistance using PAN's online patient portal (www.panapply.org) or by calling 1-866-316-PANF (7263), 9 a.m. to 5 p.m. Eastern Standard Time, Monday through Friday.

To learn more about PAN's heart failure program, please visit [here](#).

The PAN Foundation is an independent, nationwide 501(c)3 organization dedicated to providing help and hope to underinsured patients who are unable to afford the out-of-pocket expenses for their prescribed medications. Since 2004, PAN has provided nearly \$1 billion in financial assistance to approximately one half million patients, who would otherwise be unable to afford their medications.
